PROFESSIONAL SUMMARY

I'm a B.Sc. Computer Science student who learns by building. I started with HTML, CSS and JavaScript and have grown into building React applications with Tailwind CSS, Redux Toolkit and Appwrite. I enjoy turning ideas into clean, responsive interfaces, understanding how data moves through an application, and spending time debugging the details that make a project work well. I'm looking for opportunities where I can contribute to real products, keep learning, and grow as a developer.

TECHNICAL SKILLS

HTML5

CSS3

JavaScript

React

Redux Toolkit

Tailwind CSS

Appwrite

Git & GitHub

REST APIs

CORE STRENGTHS

Responsive Design · UI / UX · Frontend Development · API Integration · Debugging · Problem Solving

EDUCATION

Bachelor of Science — Computer Science

COCSIT College, Latur

Second Year (SY) · Currently pursuing

CGPA: 8.82

PROJECTS

ThoughtNest

Full-stack blogging platform with authentication, protected routes, post CRUD, rich-text editing, image uploads, responsive UI and Appwrite backend integration.

[Live Demo](#) [GitHub](#)

React · Appwrite

Currency Converter

React application that fetches exchange-rate data through an API and converts currencies with a clean, responsive interface.

React · API

Portfolio Website

Personal developer portfolio focused on responsive layouts, project presentation, clean UI and a simple browsing experience.

[Live Site](#)

HTML · CSS · JavaScript

Weather App

Real-time weather application using a REST API to display live weather information in a responsive interface.

JavaScript · REST API

Expense Tracker

Expense management application with category tracking, calculations and live balance updates built with JavaScript.

JavaScript

To-Do App

Task management app with add, update and delete functionality, built with vanilla JavaScript and a clean UI.

Vanilla JavaScript

Notes App

Browser-based notes application with persistent local storage for creating and managing notes.

JavaScript · Local Storage

INTERESTS

Web Development · Artificial Intelligence · UI / UX Design · Building Real Projects
